

# CERTIFICATION OF COMPLIANCE WITH CFR 21.4252(I) FOR TRANSFER PROGRAMS

---

- 1. Certification of Transfer Programs:** We request that transfer programs be approved for nonmatriculated students pursuing a degree under the provisions, in pertinent part, of 38CFR 21.4252(I)(2)(ii)(A)(B) and (3)(ii)(A)(B) as follows:

Courses taken by a nonmatriculated student who is pursuing a degree. The provisions of this paragraph apply to veterans and eligible persons who are pursuing a degree, but who have not matriculated. The Department of Veterans Affairs considers a student to have matriculated when he or she has been formally admitted to a college or university as a degree-seeking student. (CFR 21.4252(I).)

The first portion of the courses leading to a single degree may be offered at one college or university. The remaining courses are not offered at the college or university, but are offered at a second college or university which grants the degree based upon the combined credits earned by the student. If the student is not required to matriculate during the portion of the program offered at the first college or university, VA may approve an enrollment in a course or subject that is part of that portion of the program when the certification described in paragraph (I)(2)(ii) of this section is made. (CFR 21.4252(I)(2).)

Pursuant to CFR 21.4252(I)(2)(ii) the college or university offering the first part of the program:

(A) Certifies to the appropriate State approving agency that as a result of an agreement between that college or university and the college or university offering the second part of the program, all of the courses taken by the veteran or eligible person in the first part of the program, will be accepted by the college or university offering the second part of the program without any loss of credit in partial fulfillment of the requirements for an associate or higher degree. This certification may be made once for each program for which an agreement exists.

(B) Certifies to VA that the veteran or eligible person has stated to an appropriate official of the college or university offering the first part of the program that he or she is pursuing the program.

The first portion of the subjects or courses in a baccalaureate program beyond those necessary for an associate degree may be given at a 2-year college, while the remainder may be offered at a 4-year college or university. When the college or university does not require the student to matriculate while pursuing the additional study at the 2-year college, VA may approve an enrollment in a course offered in the program at the 2-year college if the certification described in paragraph (I)(3)(ii) of this section is made. (CFR 21.4252(I)(3).)

Pursuant to CFR 21.4252(I)(3)(C)(ii) either the 2-year college or the college or university granting the baccalaureate degree:

(A) Certified to the appropriate State approving agency that as a result of agreement between the 2-year college and the college or university offering the baccalaureate degree all of the courses pursued beyond the associate degree will be accepted without any loss of credit in partial fulfillment of the requirements for a baccalaureate degree. This certification may be made once for each program for which an agreement exists.

(B) Certifies to VA that the veteran or eligible person is enrolled in courses covered by the agreement.

- II.** Specifically, this institution requests under the provisions of 38 CFR 21.4252(I), in pertinent part, that:

(1) The approval for all UC and CSU baccalaureate transfer programs previously approved by the California State Approving Agency for Veterans Education (CSAAVE) through their catalog approval process will be accepted for transfer students; and

(2) The approval for all other independent and out-of-state articulated transfer programs will be accepted for transfer students. These programs are listed by degree title, major and transfer institution with this certification form for immediate program approval. It is our understanding that if new articulation is developed after submittal of this form, it may be submitted with the student's educational plan and a VA Form 22-1999, Enrollment Certification, to the VA office. At that time a revised CSAAVE Form 11074, Certification to Request Approval of Transfer Programs, will be sent to CSAAVE.

**III. We certify that:**

(1) All relevant articulation agreements or other agreements, including but not limited to the UC Transfer Course Agreement, CSU Baccalaureate list, major and course-to-course, to support the request for approval of the above mentioned transfer programs are on file at the two-year college.

(2) As a result of agreement between the two-year college and the college or university offering the baccalaureate degree as well as all of the courses pursued beyond the associate degree will be accepted without loss of credit in partial fulfillment of the requirement for a baccalaureate degree.

(3) The veteran or eligible person has stated that he or she is pursuing the identified transfer program.

**IV. Independent and out-of-state articulated transfer programs (attach additional sheets as needed).**
